The above balance will be required for the year ending June 30, 1848. The foregoing statement includes only a few small items in the first quarter of the year, commencing July 1, 1847. There are several heavy bills not yet presented, which, together with the current expenditures for the remaining three quarters of the year, including the expenses of the removal of the office into the new building, and additional furniture required for the increased number of clerks, and the amount paid out of the contingent fund for extra clerk hire, by direction of the Secretary of the Treasury, will, it is believed, nearly or quite absorb this balance.

DECEMBER 6, 1847.

ALBION K. PARRIS, *Comptroller.*
